ReadWriter Component

```
Interface2Logging logger;
Interface3Cache cache;
[..]
public string read(Handle h) {
   logger.writeLog("start cache read");
   while(h.hasNext()) {
       cache.readFromCache(h.current());
       logger.writeLog("cache access");
   }
   logger.writeLog("end cache read");
}
```

read():
